

## Rs-Pi 16 PWM / RGB-W HAT Board Quick Guide

This PWM RGB-W LED HAT Board can control 16 servo motors and 16 RGB-W LEDs. The i2c PWM 16 channels can be used by all Raspberry Pi models.

### Features

- Red, Green, Blue and **White** LED light control
- Two i2c ports for extra devices:
  - 2x GND, 5V, SDA, SCL
- 16-channel PWM servo ports
- 2P Terminal Block: 5V input for the PWM (V+)

### Demo Program

- RGB-W
- servo-41.py

### Package Content

- 1x 16 PWM RGB-W LED HAT Board
- 1x User Manual
